

DitoGear™ Products

Submitted by andre on Mon, 09/09/2013 - 01:41

[1]

We can now get your DitoGear™ equipment from ElysiaVisuals - This offers more choice for every budget and your specific needs. You can find the various products from DitoGear™ below. We will gradually add all of the DitoGear™ products and their accessories to our online store. But we are ready to help you out if you are interested in purchasing DitoGear™ equipment or if you have any other questions.

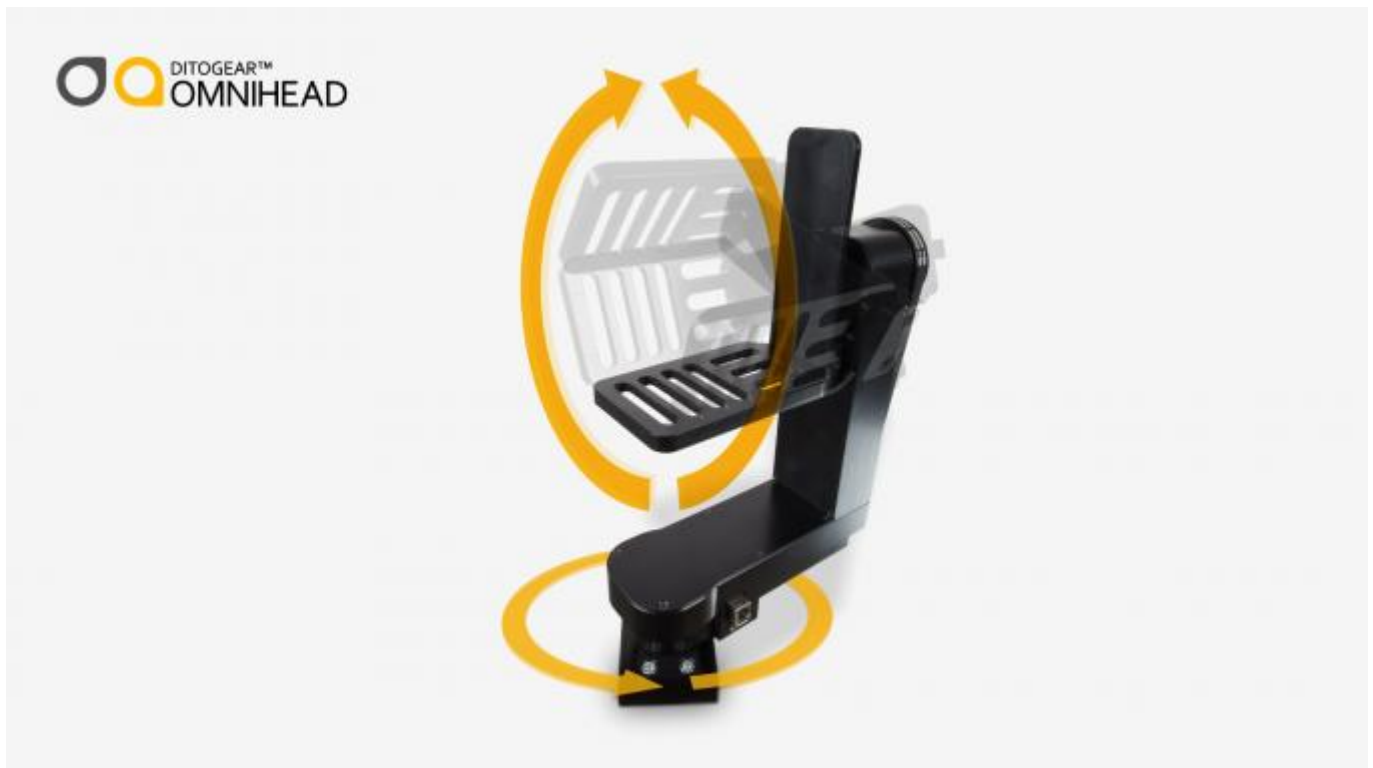

[2]

[3]

DitoGear™ OmniSlider is a robust and richly featured linear motion control slider for broadcast, digital cinema and DSLR cinematography.

[4]

DitoGear™ OmniHead is a precise and versatile motorized pan & tilt head for digital cinema, DSLR and timelapse cinematography.

[5]

DitoGear™ LensDrive is a motion control lens gears drive system for cinematography, timelapse and stop motion applications.

Cinevate Atlas 200
Powered by DitoGear

[6]

Take advantage of top quality and portability of Cinevate sliders together with robust motion control solutions by DitoGear™ - from lightweight Atlas 10 sliders for DSLRs to heavy duty Atlas 200 for heavy camera systems.

[7]

Meet Modulo - a lightweight, modular and extensible motion control system from DitoGear™.

[8]

Huge capacity of this unit combined with ruggedized enclosure allow you to power a vast range of

devices on a set. With 75Ah capacity and 10 independent outlets you'll never run out of power during the shoot.

[9]

Small, smart and invaluable. DitoGear™ DryEye keeps your optics safe and clean protecting it from dew condensation and freezing. For clean shots at night.

DitoGear™ OmniController

1-axis

live action w/ rec & playback
timelapse & stop-motion

DitoGear™ Trito

3-axis

live action only

DitoGear™ Evolution

6-axis

keyframe based motion control
iOS / Android WiFi Interface

live action
timelapse & stop-motion

DitoGear™ DragonBridge

8-axis

keyframe based motion control
dedicated for Dragonframe

stop-motion & timelapse

Cinevate Sliders Powered by DitoGear
DitoGear Motion Controllers Range

[10]

All DitoGear™ hardware is compatible with various controllers. From 3-axis Trito dedicated for realtime operation through OmniControllers for robust single-axis use to Evolution - the most advanced, keyframe-based motion control system for multi-axis rigs.

[11]

DitoGear™ Trito is a compact live-action motion controller allowing for simultaneous control of 3-axis rigs. Ideal for OmniSlider and OmniHead configuration.

[12]

This compact and powerful 1-axis motion controller includes real-time operation, motion recording & playback, advanced timelapse and stop motion features. Used mainly for OmniSlider and Cinevate sliders. DitoGear

[13]

Use DitoGear™ equipment with Dragonframe - first class stop motion animation software by DZED systems. Up to 8 axes keyframe-based motion control programming right from Dragonframe interface. For amazing stop-motion animations.

[14]

State-of-the-art technology enclosed in a small box. The most advanced controller from DitoGear™ provides 6-axis motion control from Evolution software running on Android tablets or iOS devices over WiFi.

[15]

Transport your DitoGear™ equipment to the most hostile places with these ultra strong transport cases.
